

SHIELD

The background features a dark grey diagonal band. To the left, there is a pattern of interlocking cubes. To the right, there are abstract shapes composed of small dots, resembling a star or a cluster of points.

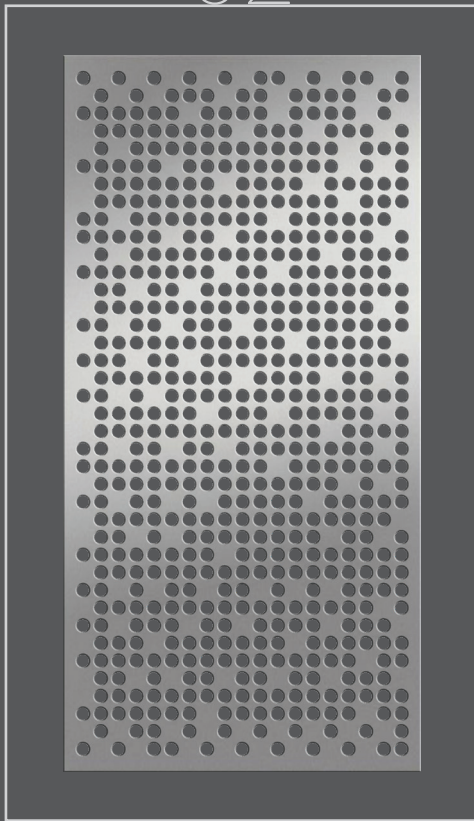

# PERFORATED PANEL

Our perforated metal panels is an excellent way to protect building exteriors or interiors while enhancing a structure's appearance, can also be designed and used as privacy screens. It is light weight, corrosion resistant, pliable and cost efficient.
