

Transforming buildings through futuristic designs

2D Facade | 3D Casting Facades | Premium Gates |  
Perforated Panels | Privacy Screens

# ABOUT SHIELD

Specializing in the design and production of high-quality aluminum façades, premium gates and perforated panels for civil and industrial constructions

With a young management team and highly qualified personnel with 9 years of combined experiences, our company has quickly expanded its construction-related activities, demonstrating a solid understanding of the market's needs

# OUR COMMITMENT

We aim to be the pioneer and have substantial contribution as a market leader in façades, fabrication and installation in global markets.

We strive to make a meaningful and sustainable impact to our customers by providing innovative, cutting-edge & market-leading services in designing and building architectural structures

We are committed to ensure safety and well being of employees and customers at all costs

# OUR VALUES

# THE EXECUTIVE TEAM

**Gowtham Ravichandran**  
Founder & Director

**Nandha Kumar**  
Production Head

# OUR UNIQUENESS

Our ability to plan and organize even the most complex building works, along with quality controls at every stage, is the key to maximizing the efficiency of every single one of our projects.

# OUR APPROACH

Early involvement and Co-ordination with project team to ensure lean construction process

Early analysis of effects of materials, techniques, schedules upon cost and time

Complete resource loaded schedule for the project

Designing, Development, Fabrication and installation

Prompt Service and Support

Guaranteed customer delight right from the word go

# OUR PRODUCTS

TWO-D FAÇADES

THREE-D CASTING FAÇADES

PREMIUM GATES

PERFORATED PANELS

PRIVACY SCREEN

# OUR OFFERINGS

---

## **Two Dimensional Facades**

By overlaying elements of laser cut & Waterjet technics within a buildings envelope design you are instantly able to create a multi-dimensional effect which draws the eye whilst perplexing your visual Definition, blurring and absorbing the true nature of outline on the building.

# OUR OFFERRINGS

## **Perforated Panels**

Our perforated metal panels is an excellent way to protect building exteriors or interiors while enhancing a structure's appearance

Can also be designed and used as privacy screens

Light weight, corrosion resistant, pliable and cost efficient

# OUR OFFERRINGS

## Three-Dimensional Casting Facades

With three-dimensional façade engineering you can totally transform a buildings character, appeal and influence, turning the construction into a venue rather than that of a simple building. By incorporating façade elements that can twist and extrude outwards, all before plunge downwards whilst still being contained within an exquisitely engineered sub-structure of the building, you are able to open a wealth of sculptural architectural opportunities.

# OUR OFFERRINGS

## Premium Gates

Premium Gates offered by Shield stances out amongst others because they blend flawlessly with its surroundings. They not only match the building installed with the gates But are a piece of eye-catching architectural work with high functionality and artistic value. The premium combined unit is the result of such an exclusive combination of technology and art. It is harmless, rust free, recyclable and weighs less.

# Machinery

S. No	Description	Model & make	Machine Specification	Quantity
1	CNC Laser Cutting Machine	Bystronic, Switzerland	3KW, Minimum 1mm to Max 4 mm Thick in Aluminium	3 Nos
2	CNC Press Brake	JFY, China	100 Tons, 3 Meter	1 No
3	CNC Turret Punch Press	JFY, China	30 Tons, 32 Stations, 6 mm thick 1250 x 2500 mm	1 No
4	Punching Machine	Ashok Mfg. co	55 Tons up to 70 Dia till 3 mm thick Aluminium	1 No
5	Tool Room Size	3000 Sq ft of area	CNC and VMC	Each 1 No
